

Flávia Mesquita - Art

About me and the work,

I'm Flávia Mesquita, I was born in São Paulo, but I've lived in Campinas for many years, where I have my studio. I am a graduated artist from PUCCampinas and I develop artistic works in the areas of sculpture (flat and spatial), drawing, weaving and digital art.

What moves me to build interlaces and layered compositions is to understand that everything around us is connected and connects to us by similarity and affinities of ideas, forming a gradual and interconnected fabric that we perceive as our reality. My art is especially conceptual, comes from simple elements, created from basic geometric shapes, and wants to demonstrate in its compositions, small flashes of human events, their encounters, agreements and postures; and how, in simple overlapping and interwoven forms, we show, our unity as humanity.

About the techniques,

My work consists especially of flat sculptures, made on high-weight paper, interwoven and/or overlapped, framed between glasses, natural wood. Recently I have been developing polymer sculptures, with the same approach themes for larger works that need more exposure to environment.

Each work tends to be unique and exclusive in its proposal, and should vary in size or in the colors in which they will eventually be re-executed. The Atelier delivers the works on paper already framed at no additional cost.

CIRCLES

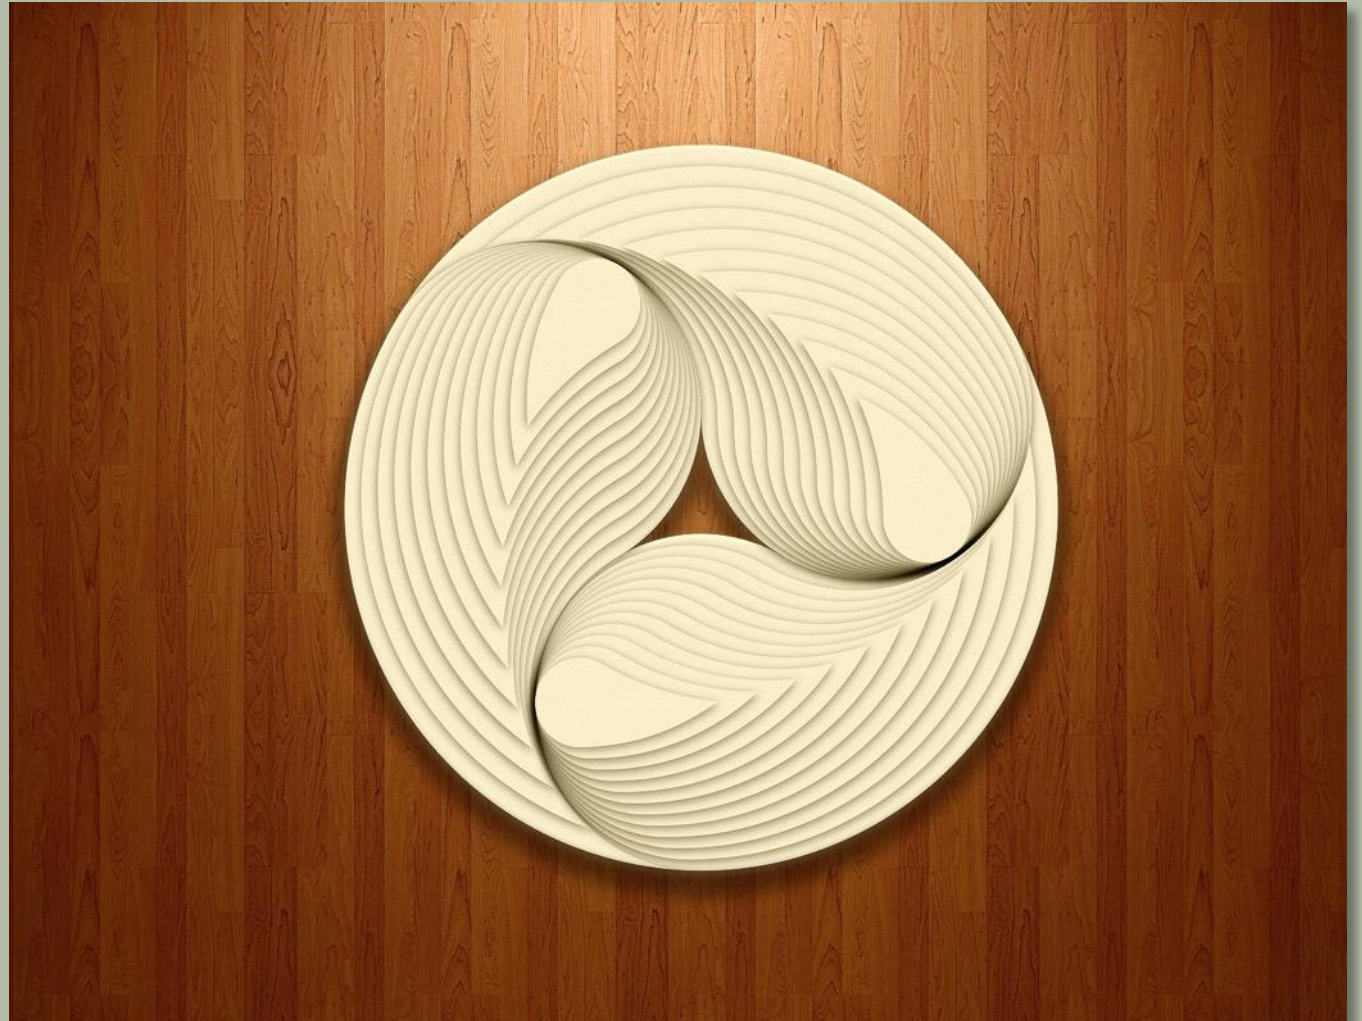

Circles are the simplest shape of all geometry. Metaphysically represents the unity of BEING. In that perspective, it contains in its inner part, all the complexity of our emotional existence. It suggests structure, strength, and complexity. Within it there is movement, questioning and search for balance.

420grs Paper Sculpture
with acrylic painting.
Framed size:
86x86cm
R\$ 10.800
Available

Geometric shapes in everyday life?
Countless! And the first memory that came
to mind was the umbrella. At first, with its
traditional form. And I couldn't help but
use layers on its triangular faces, mixing
this element with other shapes I've
developed before, like DROP for example.

BALLON SERIES

Available sizes

50x50cm: R\$ 4.300

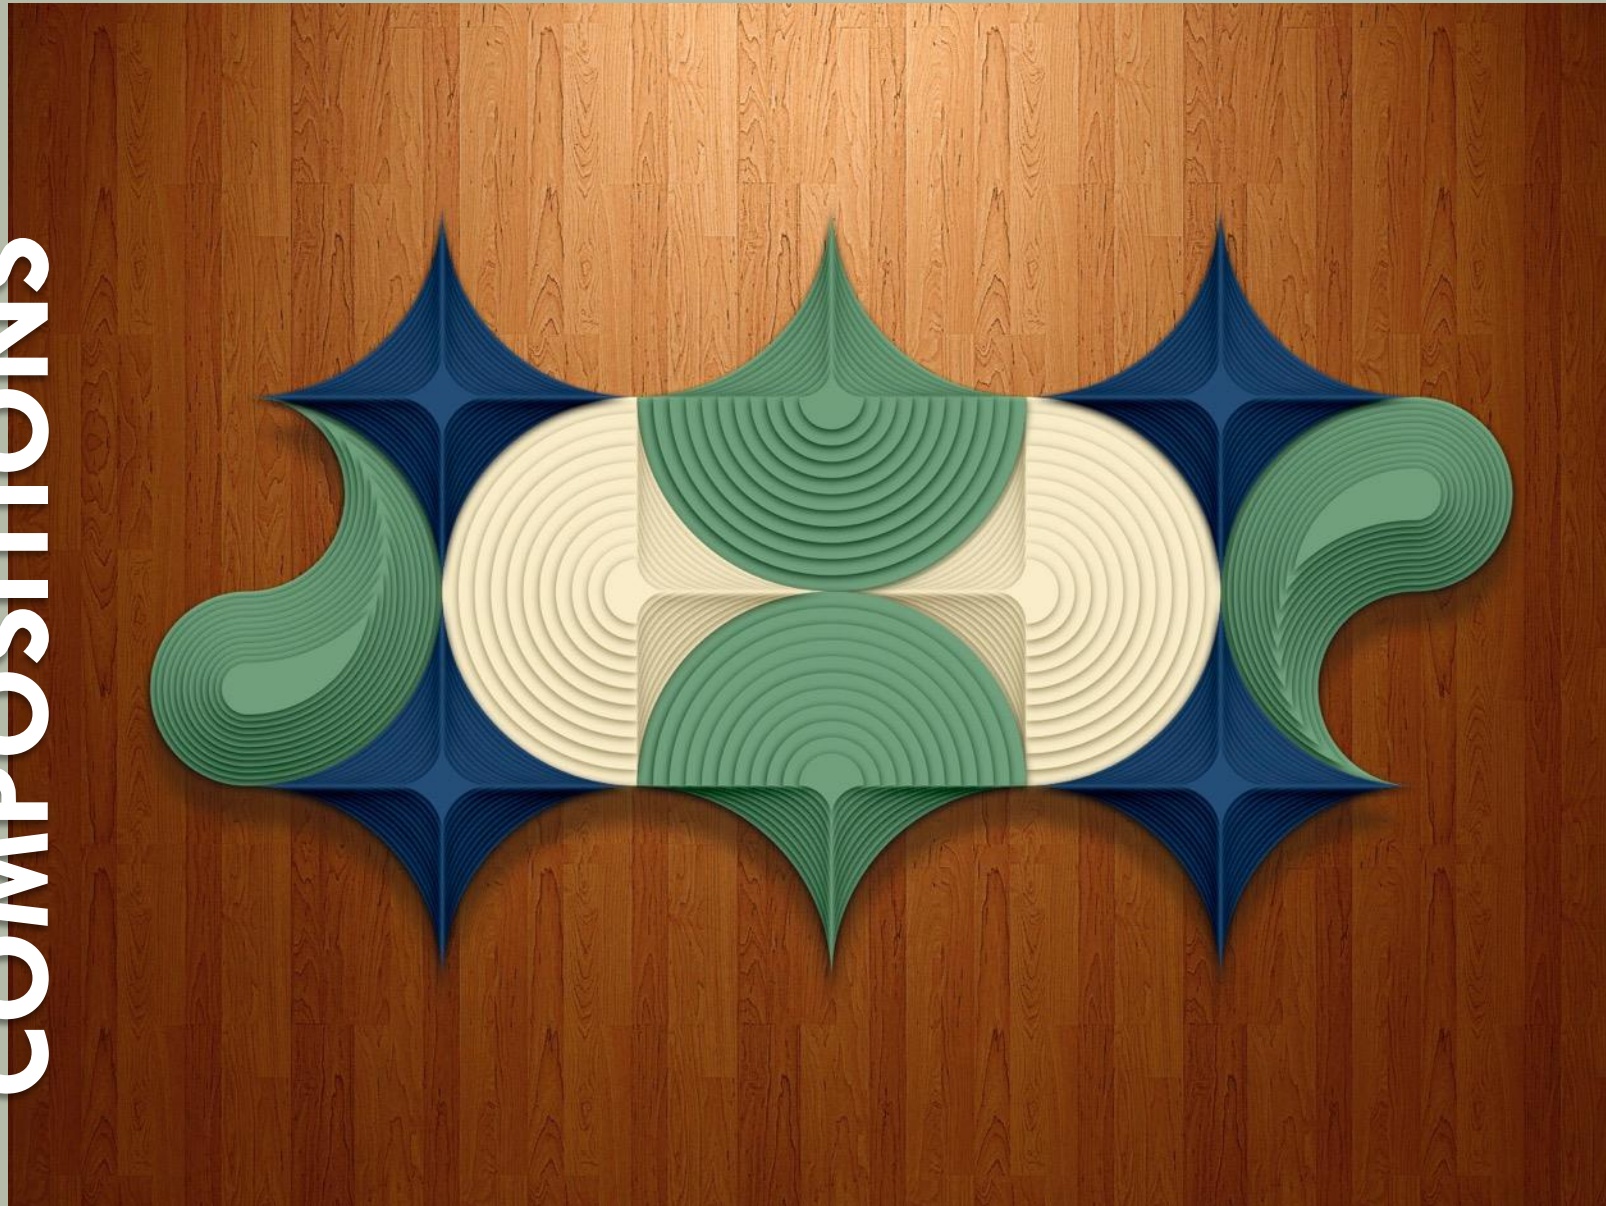

70x70cm: R\$ 7.900

80x80cm: R\$ 10.800

Other sizes upon request
